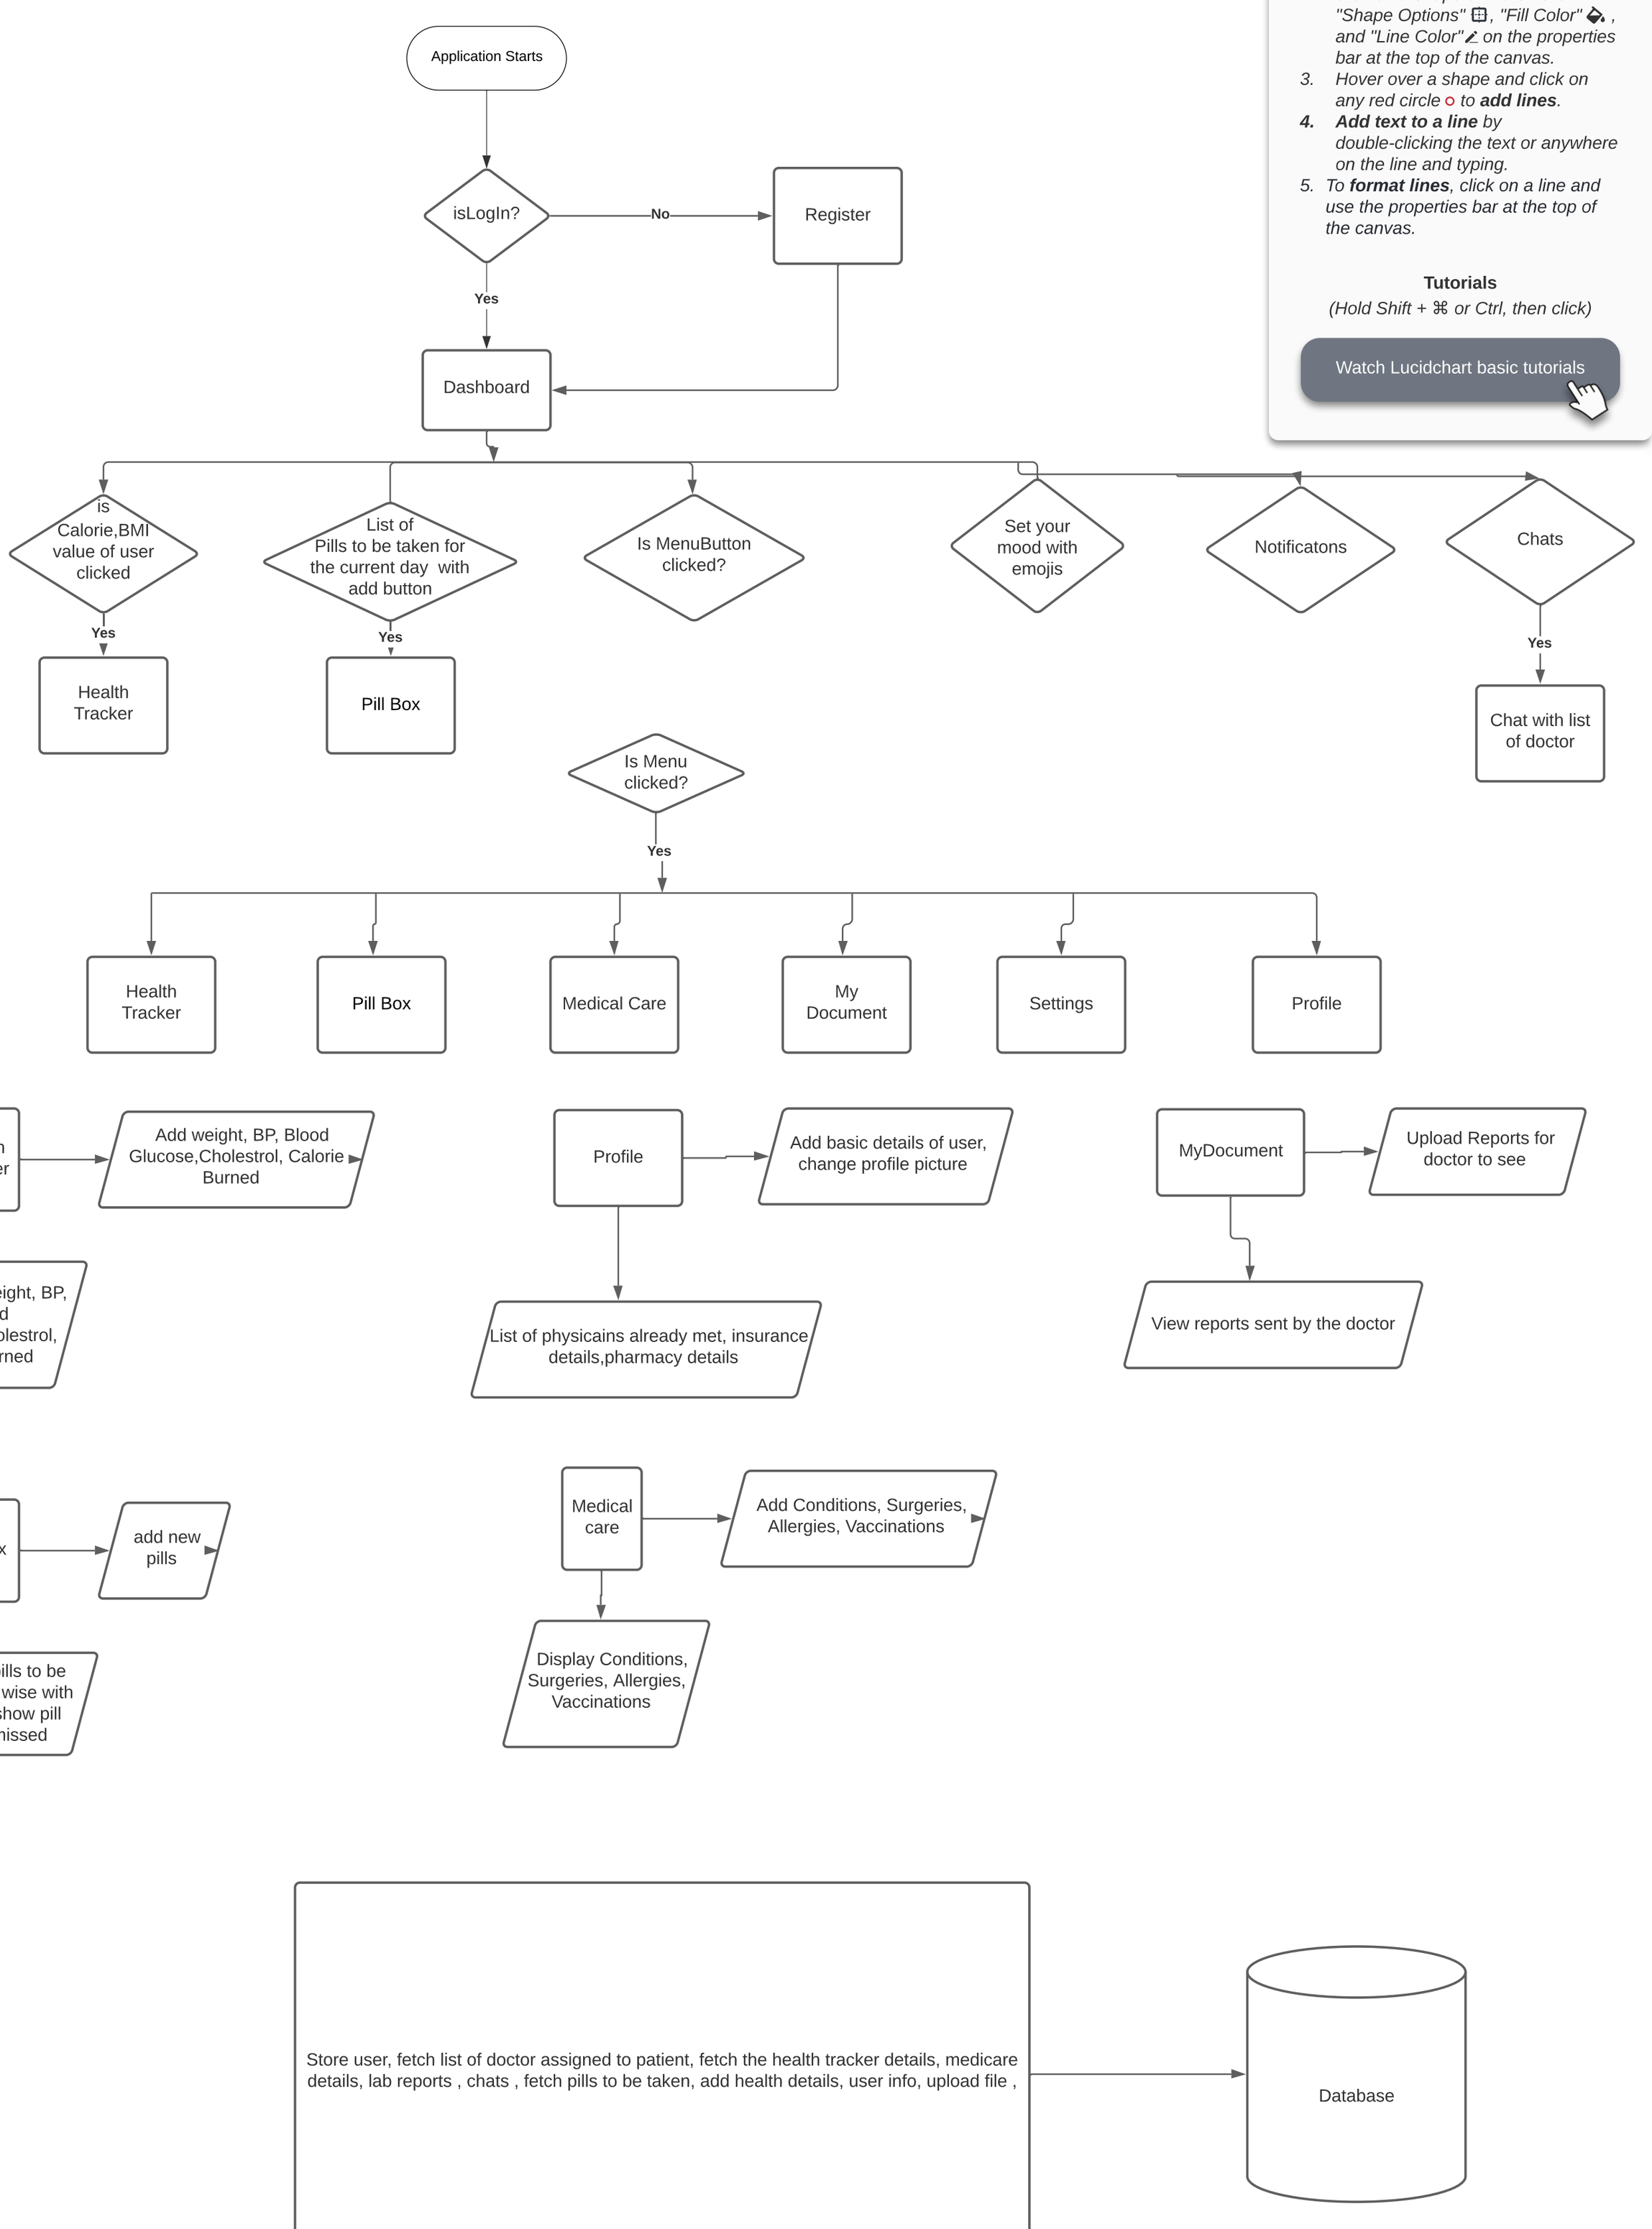
HEC App Flow chart

Aakash Sinha | June 22, 2021



This apps basically connects patient with a Doctor.
Patient logs in finds a Dashboard where menu Button with Health Tracker , medical care, My Documents, Settings, Pill Box is there.
Dashboard shows a table view of pills taken or to be taken for the current day, with basic health tracker details.
Notification Button and chat Button to chat with doctor assigned to the patient.
Each module in menu like health tracker tracks the day to day health of the patient, medical care tracks the major surgeries , vaccinations, My Documents tracks for lab reports of patient and Pill box tracks the daily medication with status showing if missed , taken or skipped.
Chat has list of Doctors the patient can interact with assigned by care managers..
